

- Compact design
- Temperature resistant up to 120°C
- Easy and fast to assemble
- Usable for all heating cables type CSK

## Description

The IAKAT1 system contains an easy and fast to assemble termination kit based on shrinking technology.

Because of the compact design it is easy to use below the thermal insulation.

The IAKAT1 enables to connect a heating tape with a special cold lead. With this cold lead it is easy to connect to a termination box or a controller box.

The illustrated manual helps for an error-free installation.

## Technical Data

Max. Workpiece Temperature: 120°C

Heating Cables: CSK

Cross Section: up to 2.5mm<sup>2</sup>

Length of Terminal Block: 20mm

Length of Shrinking Cable: 120mm

## Ordering Information

Part number:  
IAKAT1: Termination kit for CSK heating cables

## Alternative Products

Part number:  
IAK8EK: Ex-sleeve for ISK heating cables up to 20A

## Further Information

Please consult the installation instructions!

## Further Products

Part number:  
AG 101: Termination box for up to 3 self-limiting heating circuits or 1 single core heating circuit  
IAKKE1: Cold lead 2.5mm<sup>2</sup>, length 1,2m
